SUMMARY

I'm a proactive Systems Engineer with 2+ years of experience specializing in Java. Eager to transition into a full stack developer role, leveraging strong problem-solving skills and a keen interest in full stack technologies. My goal is to leverage my existing experience while embracing new technologies to deliver well-rounded and impactful software solutions.

WORK EXPERIENCE

Cognizant Technology Solutions, Bengaluru (**Intern - PAT**)   **Mar 2023** - **Jun 2023**

- Trained as the Java Developer for IAM solution to maintain, enhance and develop a rule using java, which helps the IAM tool to automate the processes.
- Developed a solution where employee identities will automatically enter the organization's IAM solutions and give them with basic rights at the time of onboarding. Which leads to improvement in productivity.

Cognizant Technology Solutions, Bengaluru (**System Engineer**)   **Sep 2023 - Present**

- Develop, enhance, test and maintain a reliable customized IAM solution with the help of the SailPoint API across all the environments like development, testing and production.
- Handle support tickets from the client side to resolve their technical and functional issues of the customized IAM solution. Generate the customized report for audit and compliance purposes.

EDUCATION

Mepco Schlenk Engineering College, Sivakasi - B. Tech IT (**8.4 CGPA**)   **Aug 2019 - Mar 2023**
